

KONICA MINOLTA

Giving Shape to Ideas

# PageScope Mobile

## Documents on the go

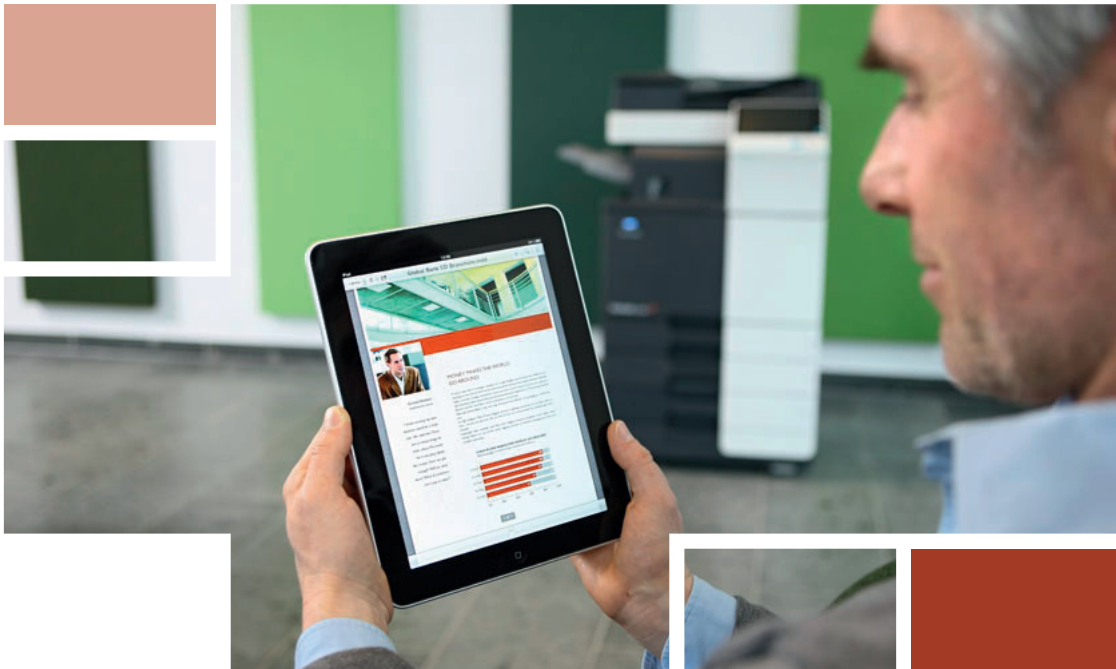

Absolute mobility is becoming ever more important in the corporate business world. It is also impacting our private lives as well. Smartphones and tablet PCs are now commonplace tools, used for digital communications on an everyday basis – parallel to traditional paper-based communications.

■ The PageScope Mobile app will change your work style in no time at all. This intelligent app enables Konica Minolta multifunctionals to be conveniently connected to mobile devices, Android or iOS. By offering two key functions, namely printing and scanning, the PageScope Mobile app lets you browse, read and order prints of your documents, emails and photos. Likewise, you can load data scanned via a bizhub system.

■ Don't hesitate to download the PageScope Mobile app, now available free of charge from App Store and Google play. You too can benefit from enhanced mobility and by boosting your overall productivity.

Connectivity PageScope Mobile

## → Key features

- Printing and scanning via Wi-Fi
- Ordering prints of emails including attached documents, photos and other files on Konica Minolta multifunctionals
- Easy managing of documents via “My Documents”:
